Scope

- The customize plug-in scope requires changes in admin (backend) as well as in front end.
- For Admin, we need to allow multiple images to add/remove/view for selected option and allow to set/update redirect URL on each image. Screens are prepared to visualize changes on admin panel.
- For front end, we need to show images on click on selection option. Screen is prepared to visualize changes on front end
- Restriction : we allow 5 or 6 images max to attach for each option.
- Total hours : 20
- Total Cost : $225
